EXPERIENCE

Business Systems Trainee at Centenary Bank – Kampala, Uganda May, 2026 – Present

- Provide **technical and functional support** for enterprise and banking applications, including **PROFITS, FLEXCUBE, TPS, SWIFT, Bill Pay, HRIS, CRM** and other critical business systems, investigating incidents and coordinating resolutions to maintain business continuity.
- Perform **Oracle SQL development, database querying and reporting**, extracting, validating and reconciling financial and operational data to support business reporting, investigations and management decision-making.
- Analyse and troubleshoot **financial transaction processing and systems integration issues** across **RTGS, SWIFT, Bill Pay, Electronic Funds Transfer (EFT)** and middleware platforms, investigating transaction failures, notification discrepancies and application-to-application communication.
- Support **core banking and enterprise application administration**, including **user provisioning, access management, role configuration, password resets, permissions validation** and periodic **user access recertification**.
- Investigate **application, database and infrastructure incidents** by analysing system logs, SQL query results, transaction records and application configurations to identify **root causes** and facilitate corrective actions.
- Participate in **systems integration, database migration and enhancement initiatives**, including analysing existing **FLEXCUBE database structures** and developing equivalent **SQL queries and reporting logic for the PROFITS banking platform**.
- Support **information security and regulatory compliance initiatives**, including **PCI DSS access reviews, vulnerability assessment remediation, security findings validation** and coordination with system custodians and third-party vendors.
- Provide technical support for enterprise platforms, including **SAS Anti-Money Laundering (SAS AML), SAS Visual Analytics, HRIS, CRM, Compliance Tracker** and other internal business applications.
- Coordinate with **business users, application owners, infrastructure teams and external vendors** to investigate system defects, validate fixes, facilitate **User Acceptance Testing (UAT)** and support the implementation of system enhancements.

- Support **digital banking and business onboarding initiatives** involving **SchoolPay, ELMA, Agent Banking, Bill Pay** and other enterprise solutions, including system configuration, documentation validation and issue resolution.
- Contribute to **business process improvement** through **system analysis, requirements clarification, incident trend investigation** and identification of opportunities to improve application functionality and operational workflows.

Web Development & Digital Manager at Diamond Stagers – Brampton, Canada. Jan, 2025 – Jan 2026

- **Designed, developed, and manage** responsive company **websites**, ensuring optimal performance and user experience.
- **Oversee all digital platforms** including **Facebook, Instagram, Tiktok, and YouTube** and create engaging content, managing ads, and analyzing performance metrics to boost brand visibility.
- **Run and optimize Google Ads campaigns** and implement **SEO strategies** to enhance search rankings and lead generation.
- **Advise management on digital marketing strategies** to improve online presence and attract new clients.
- **Create brand materials** such as **logos, banners, posters, and promotional graphics** that align with company branding and campaigns.
- **Edit and produce high-quality videos** for social media, strengthening brand storytelling and audience engagement.
- **Collaborate with the marketing team** to plan and execute campaigns that integrate both **technical and creative initiatives**.
- Operate in a **hybrid role**, combining **web management, digital marketing, and creative media production** to support overall business growth.

Resident Assistant at University of Windsor – Windsor, Canada. Aug, 2022 – April, 2024

- Provided **immediate assistance and support** to students, addressing their needs with professionalism and empathy.
- Developed and enforced **policies to ensure safety, well-being, and a positive living environment** for residents.
- Implemented and upheld **institutional policies**, including **Equity, Diversity, and Inclusion (EDI) initiatives** and community standards.
- Delivered **peer leadership and mentorship**, guiding individuals through challenges and fostering personal development.
- Managed **conflict resolution and crisis intervention**, making quick, effective decisions in high-pressure situations.
- Led **event planning and community engagement initiatives**, creating meaningful experiences and fostering strong relationships.
- Provided **student support and guidance**, ensuring a high level of service and satisfaction.
- Participated in an **on-call rotation**, responding to urgent matters, emergencies, and resident concerns in a timely manner.
